Summary

I am an industrial designer with a master's degree in production design and themed entertainment design. Over the past four years, I have worked in the themed entertainment industry as a show set designer, developing projects from concept to reality. My expertise includes exhibition design, amusement parks, and themed environments. I am skilled in 3D modeling using Maya, Revit, and 3ds Max, as well as graphic design, concept art, and creating comprehensive design packages. Traveling and experiencing different cultures has broadened my creative horizons, providing unique perspectives that enrich my design approach. I am passionate about my work and excel in fast-paced environments, consistently delivering high-quality results.
